

DREXEL UNIVERSITY  
College of  
Medicine

## ALUMNI ASSOCIATION

no questions to automate the history-taking process. Currently, Dr. Harlin has eight Drexel University College of Medicine students rotating with him for the Introduction to Clinical Medicine course. “They’re great,” he says, “a good group, and I feel absolutely privileged.”

His wireless, paperless practice earned Stephen Harlin, M.D., HU '86 (above right, with two students), a feature in Apple Computer's Small Business profiles ([www.apple.com/business/profiles/harlin](http://www.apple.com/business/profiles/harlin)). A reconstructive plastic surgeon, Dr. Harlin is a Clinical Assistant Professor in the Department of Surgery, and Medical Director of the Wound Clinic in Broomall, Pa. Most of his patients have difficult wounds and multiple medical problems. “To put it mildly, they’re a very data intensive group,” he says. The database Dr. Harlin adopted to store, organize and analyze that data helped drive his paperless revolution.

For example, he developed a structured questionnaire using a wireless tablet with a series of yes-or-
